CFOP 170-9 Chapter 9

Policy

It is the policy of NWF Health Network (NWFHN), to mandate Case Management Organizations (CMOs) provide standardized criteria used for the discontinuation of an agency-managed safety plan for families receiving case management supervision in order to guard against safety plans being left in place when less intrusive actions are appropriate and, conversely, safeguard against a plan being terminated prematurely when the child remains unsafe. The CMOs should establish termination procedure for both non-judicial and judicial cases which provide direction to the children and families and document safe closure of the case pursuant to CFOP 170-7 Ch. 13, CFOP 170-9 Ch. 9 and 65c-30.022 F.A.C.
