Policy

NWF Health Network (NWFHN) recognizes the importance of recruiting and retaining quality foster parents for children in care. As they already work in the social services field, employees of NWFHN, NWFHN's subcontracted provider agencies and other partner and community stakeholders may possess knowledge and skills that would make them strong candidates for foster parenting. However, there may be an inherent conflict of interest for these individuals in seeking to foster children in NWFHN's custody.

It is the policy of NWFHN that employment in the field should not, in and of itself, preclude an individual from becoming a foster parent, given that the person meets all other standards required for licensure pursuant to Chapter 65C-45, F.A.C., and that conflict of interest can be avoided given careful consideration and approval of placements into the home. The procedure outlined in this section should be followed in order to mitigate any conflict of interest that may arise when individuals seek to become Licensed Out-of-Home Caregivers.

Procedure

A. General Principles

1. Applicability. This policy is applicable to:
 - a. Employees of NWFHN
 - b. Employees of NWFHN subcontracted provider agencies
 - c. Employees of other child welfare partner and community stakeholders (such as the Department of Children and Families, , Children's Legal Services, Guardians ad Litem, the Judiciary) and
 - d. Immediate family members of NWFHN employees and any of the agencies included above. Immediate family members are defined as a parent, sibling or child, and/or any current household members.
2. Requirement for Review: If an employee, or any individual identified as having a potential conflict of interest, applies to become a licensed (Level I-V) foster parent – or – a licensed foster parent is hired by an applicable agency, a Conflict Staffing is required.

The executive director or designee in upper level management of the community-based care lead agency or supervising agency responsible for submitting the employee, relative, or subcontractor licensing file to the Department (NWFHN's Chief Operations Officer or Contracts Administrator) has reviewed and approved the submission of the application to the Department.

The Regional Licensing Authority obtains approval of the application from the Regional Managing Director or designee prior to issuing a family foster care license for an employee, relative, or subcontractor.

2. Foster Family Support Service Program or Kinship Program will notify the Licensing Attestation unit within 48 business hours when a potential conflict is identified by submitting a Conflict Staffing Request to Attestation@nwfhealth.org.
