- A. NWFHN operates as a community-based system of care that enables and empowers caregivers for children in foster care to offer high-quality parenting, allowing them to make decisions regarding a child's participation in activities using the "reasonable and prudent parent standard" as defined in s. 409.145 and in s. 39.4091, Florida Statutes and using "normalcy" as provided in 65C-28.019, F.A.C., giving them the autonomy to make informed decisions that align with the child's best interests.
 1. NWFHN will verify that contracted private agencies providing out-of-home care services to dependent children have policies in place which are consistent with s. 409.145, Florida Statutes, and that these agencies promote and protect the ability of dependent children to participate in age-appropriate extracurricular, enrichment, and social activities.

NWF Health Network Policy & Procedure
